

Alfonso Reyes

Short CV

Alfonso Reyes is a physicist and a systems engineer from Los Andes University. He has a MSc in Computer Science (University of Maryland), a PhD in Management Cybernetics (University of Humberside, UK) and postdoctoral studies in Organizational Learning (University of Lincoln, UK). He has worked for the last thirty years in addressing organisational problems in the public sector, specially in the administration of justice. He has been an international consultant for the Interamerican Development Bank and the Agency for International Development (USA) in applying management cybernetics to the public sector. He has published several papers about individual and organisational learning and self-organisation from the point of view of second-order cybernetics. He was the chancellor of the Universidad de Ibagué in Colombia (2009-2016) and currently is the Dean of the Engineering School at los Andes.
